VISION

{ A Progress Report on the Past Twenty Years }

The passage of time always brings change.

Nowhere in business has change been more profound over the past 20 years than in banking. From the days when in-house technology was developed by the institution, for the institution, to the realization that the network is the money, BTN presents some of the industry's most advanced—and advancing—moments.

Innovations

THESE ROLLOUTS WERE AGGRESSIVE, ORIGINAL AND HIT THE SWEET SPOT FOR THOUSANDS OF BANKS FACED WITH THE PRESSURES OF EXPANDING SHARE AT A TIME MARKED BY NEW COMPETITORS, NEW RULES AND NEW THREATS. **BY GLEN FEST**

MY VISION X

PANINI

Distributed capture hardware extends the paperless equation of Check 21, producing digital documents rendered in teller capture, cash vault, remittance processing, and the remote deposit market. The private company is having very public success.
