

BioCred SecureTab is the cornerstone of the BioCred method.

Designed to provide unparalleled security, it seamlessly integrates and consolidates a comprehensive range of authentication and verification functions.

Privacy, Mobility, Ergonomics perfectly integrated.

Experience the pinnacle of security and convenience with **BioCred SecureTab**.

Our cutting-edge technology is designed to meet the demands of modern businesses, providing unparalleled privacy, mobility, and optimal ergonomics.

Privacy at Its Core

With biometric authentication, BioCred SecureTab ensures that your biometric data remains secure and accessible only to authorized users.

Seamless Mobility

BioCred SecureTab provides the flexibility to stay productive wherever you are within your workspace.

Our BioCred method

We developed a **digital identity** & authentication process based on biometrics.

Our fingerprint recognition **BioCred method** is among the most reliable and secure biometric technologies, consensual by nature, and **FBI Appendix-F certified**.

- **Improve how spaces are utilized and enjoy a clutter-free environment that boosts efficiency and comfort.**

Designed with the user in mind, BioCred SecureTab enhances your workspace with:

- **Minimized footprint**
- **Optimized cable management**
- **Consolidation** of essential functions

Revolutionize your KYC process with BioCred, a GDPR-compliant and liability-free solution.

Input customer data manually, via ERP, or OCR, followed by fingerprint scanning.

Encrypted data is sent to BioCred's secure server, and QR codes or NFC tags are generated for authentication, accessible via a smartphone app or stored in NFC tags.

1 Barcode \ ID card scan camera

2 Color Touch Display

- Function selection
- Electronic Signature

3 Standard NFC Antenna

Contactless read & write

4 Fingerprint scan surface

5 Face Camera
